

SAND & STONE PRODUCTS

SAKRETE ALL-PURPOSE SAND

DESCRIPTION

A dried, medium-fine, natural sand.

USES

Concrete Mix, Sand Mix, winter traction.

PACKAGING

30 kg (66 lb) poly bag.

KING PLAY SAND

DESCRIPTION

A tan coloured lake sand (especially designed for castle building).

USES

Ideal for sand boxes.

PACKAGING

20 kg (44 lb) poly bag.

KING DECORATIVE STONE CHIPS

DESCRIPTION

A crushed white calcium carbonate stone ranging in size from 3/8" to 1/2".

USES

Decorative ground cover.

PACKAGING

20 kg (44 lb) poly bag.

KING JOINTING SAND

DESCRIPTION

A washed and dried sand with irregular shaped aggregates.

USES

For filling joints between interlocking stone and brick. Fills voids easily. The irregular shapes of the aggregates provide better stability than silica sand and resist "wash-out".

Pour onto surface as required and sweep over joints. Sweep off excess.

PACKAGING

20 kg (44 lb) poly bag

KING CONSTRUCTION SAND

DESCRIPTION

A "fine" natural mortar sand.

USES

For Mortar Mix, Sand Mix and grouting.

PACKAGING

30 kg (66 lb) poly bag.

KING LIMESTONE SCREENINGS

DESCRIPTION

Pure limestone screenings passing a 3/16" screen.

USES

Provides an excellent base for interlocking brick and patio slabs. Prevents growth of weeds and establishment of ant colonies between bricks.

PACKAGING

30 kg (66 lb) poly bag.

KING GRAVEL

DESCRIPTION

A natural crushed stone ranging in size from 3/8" to 1/2".

USES

Concrete Mix, drainage and driveways.

PACKAGING

30 kg (66 lb) poly bag.

KING 3/8 PEA GRAVEL

DESCRIPTION

A 3/8" round stone.

USES

Decorative landscaping around: patios, decks, gardens, play areas, pathways, dog runs, around pools and ponds and flat roof repairs.

PACKAGING

30 kg (66 lb) poly bag.
